WHATELY HALL HOTEL

A little fact to whet your palate

Whately Hall has a great connection to Jonathan Swift, the author of 'Gulliver's Travels' published in 1726. Swift was staying here when writing the book and took the name of his hero from a tombstone, which stood on the north side of the church. The name Gulliver may still clearly be seen on a plaque in the churchyard in memory of the original, as time has taken its toll on this stone.
